## Mission

"To establish a drum and fife corps in the Kearney area that will keep the music and history alive of early America, to provide for an educational experience of our youth and adults and to help educate the members of our community on the sacrifices of the men and women during these time periods."

In November 2002, the 1848 Venture Crew was established by the Great Platte River Road Archway. It specializes in American Civil War reenacting and now is starting a Drum and Fife Corps. It is open to both males and females who are interested in music and history.
